

A diretoria do Capítulo Estudantil SPE - UFES tem a honra de presentear seus integrantes com a conquista da maior biblioteca online de engenharia de petróleo, *OnePetro*. Na plataforma do *OnePetro*, o aluno (a) da Universidade encontrará mais de 145 mil artigos em 18 periódicos diferentes, e poderá fazer *downloads* sem nenhum custo.

Não podemos deixar de agradecer a SPE *Grant*, pela ajuda nessa aquisição. Afinal, o acesso à biblioteca, disponibilizada pela SPE internacional, é feito com certo investimento.

Espera-se, com grande entusiasmo, que essa plataforma possa contribuir com a expansão do conhecimento científico. Para fazer melhor uso do *OnePetro*, no conforto de sua casa, basta seguir as etapas abaixo.

1) Primeiramente, acesse o *Onepetro* pelo site <www.onepetro.org>;

2) Clique em "*Register to purchase instant access*" destacado na figura abaixo;

4) Após se inscrever, clique em "My account";

The screenshot shows the OnePetro website homepage. The browser address bar displays <https://www.onepetro.org>. The website header includes the OnePetro logo, navigation links (About us, Contact us, Help), and a currency selector set to USD - US Dollar. A shopping cart icon shows 0 items for USD 0.00.

The main content area features a search bar with the placeholder text "Enter your search term here" and a "Search" button. Below the search bar are filters for "Peer reviewed only" and "Published between" with year input fields. A "Search syntax help" link is also present.

A descriptive text block states: "OnePetro is a unique library of technical documents and journal articles serving the oil and gas exploration and production industry. Find out more about who we are and what we do."

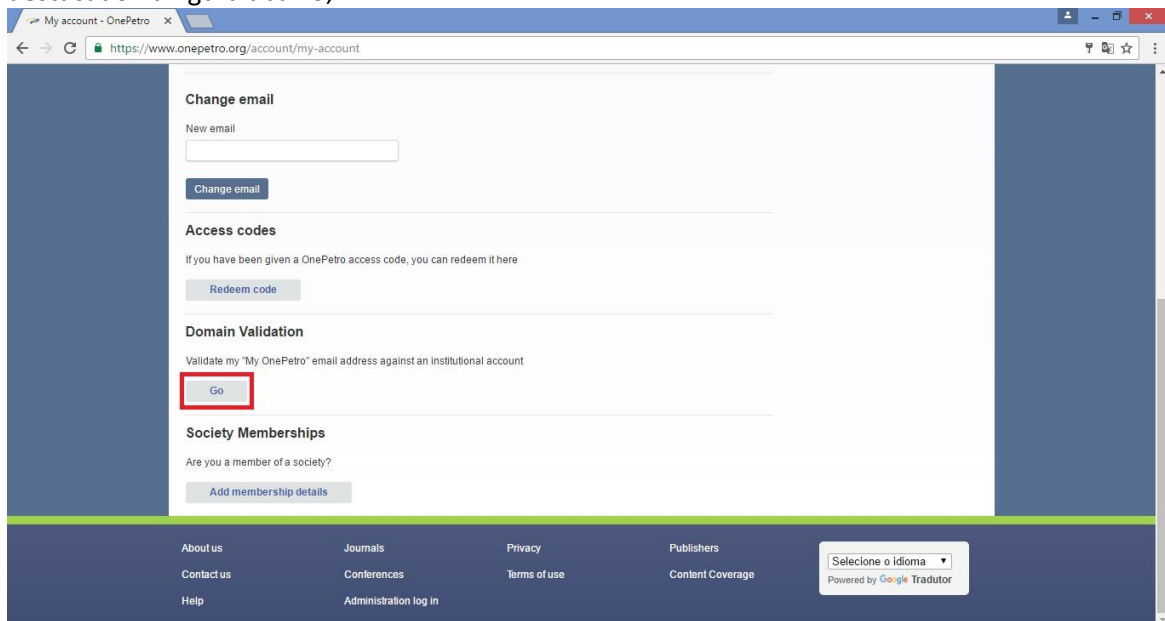

Below this text is a table titled "Most recent" and "Most downloaded". The "Most recent" tab is active, showing a list of documents:

Rank	Document Title	Source	Date
1.	Multiphase Flow Meter Performance Evaluation Using Live Hydrocarbon Flow Loop Mi...	SPE	26 Sep 2016
2.	A Novel Approach to Integrated Reservoir Characterization and Advanced High-Reso...	SPE	26 Sep 2016
3.	A New Technique to Characterize Fracture Density Using Neutron Porosity Logs Enh...	SPE	26 Sep 2016

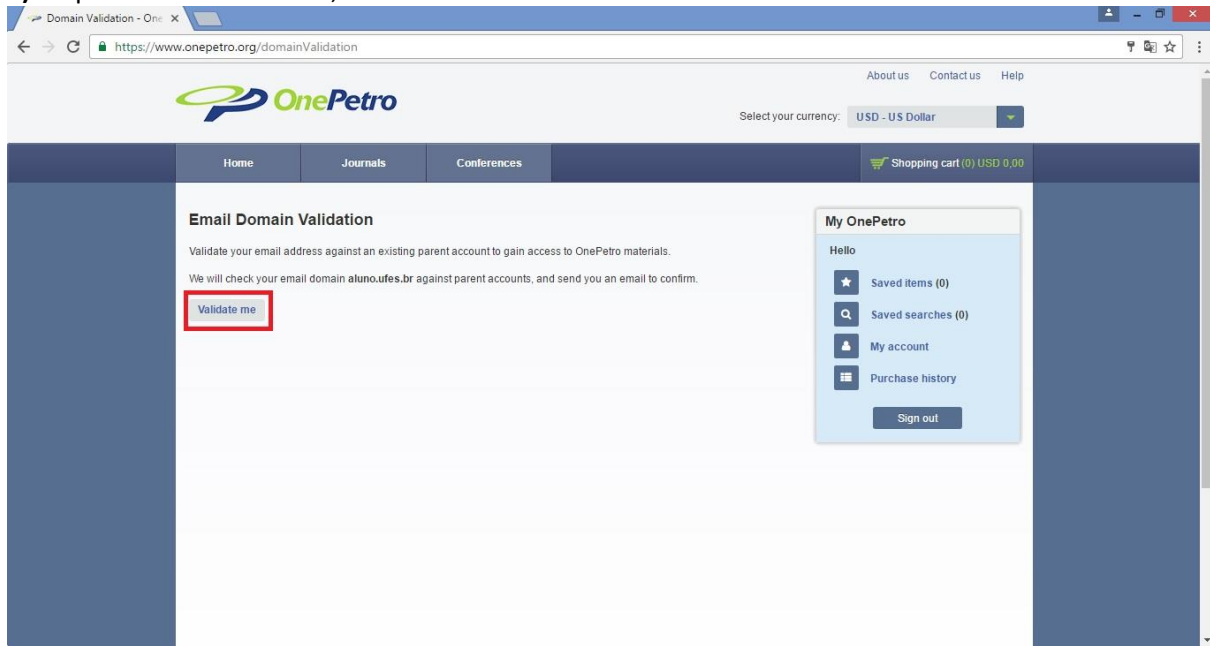

On the right side, the "My OnePetro" user menu is visible. It includes links for "Saved items (0)", "Saved searches (0)", "My account" (highlighted with a red box), and "Purchase history". A "Sign out" button is located at the bottom of the menu.

At the bottom right, there is a promotional banner for "Request for Proposals Recovery and Deep Reservoir Monitoring" by Saudi Aramco EXPEC Advanced Research Center, with a deadline of October 6, 2016.

5) Agora, no final da página que abriu, em baixo de "Domain Validation" clique no botão "Go" destacado na figura abaixo;

6) Clique em "Validate me";

7) Como seu e-mail institucional está vinculado com seu e-mail cadastrado na UFES, você receberá, por meio deste, uma mensagem com um *Link*. Acesse-o ou copie e cole este na barra de endereço.

Feito isso, você já pode fazer *download* de todos os materiais disponíveis no *OnePetro*. A diretoria da SPE - UFES está a disposição para tirar qualquer dúvida ainda permanente.

Aproveite bem a plataforma!
SPE-UFES Team.
